BUILT FOR ROUTES.  
READY FOR ADVENTURE.

# HIGH WAVE

## Liveboard Safari & Charter

Red Sea, Egypt

### Where experience meets open sea routes.

M/Y High Wave is a professionally configured liveboard safari yacht operating across the Red Sea. Designed for group charters, diving safaris, and mixed-activity expeditions, the vessel delivers reliability, space, and comfort for extended offshore journeys.

# Purpose-Built for the Red Sea

Red Sea, Egypt

M/Y High Wave is designed for operators and guests seeking more than a standard liveaboard. From technical readiness to practical comfort, the yacht supports long-range itineraries while maintaining a relaxed onboard atmosphere suited for active days and calm nights at sea.

## A Reliable Platform at Sea

Private group charters

Safari liveaboard programs

Multi-route expedition capability

Kiteboarding & More

Built in 2024 with a solid steel hull and refined modern lines, MY AVO represents a new generation of luxury liveaboards. Spacious, stable, and beautifully balanced, she blends yacht-style comfort with professional cruising capabilities.

## Designed for Flow & Function

The interior and deck layouts of M/Y High Wave are arranged to support easy movement, shared social spaces, and clear separation between guest areas and operational zones. This ensures comfort onboard while maintaining efficient daily operations during active safari schedules.

### Vessel Overview

- Length: 34 m
- Capacity: 24 guests
- Cabins: 12 double cabins
- Hull: Steel

### Propulsion & Systems

- Engines: Twin MAN Marine engines – 850 HP each

### Life-Saving & Emergency Equipment

- 2 lifeboats (24-person capacity each)
- Lifejackets in all cabins plus additional units onboard
- Integrated fire alarm and automatic fire-suppression systems covering all areas
- International-standard medical kits including defibrillator

## Technical Readiness & Safety

M/Y High Wave is certified and equipped to meet the operational demands of Red Sea liveaboard navigation. Navigation systems, safety equipment, and onboard procedures are integrated to support extended offshore cruising with confidence.

## The Social Core Onboard

The main saloon serves as the central gathering space onboard M/Y High Wave. Designed for relaxed interaction after active days at sea, it offers comfortable seating and a practical layout suitable for briefings, social time, or quiet rest between dives and excursions.

- Lounge seating
- Shared relaxation area
- Audio & visual system

## Dining with Open Horizons

Meals onboard M/Y High Wave are served in a bright and functional dining area designed to accommodate all guests comfortably. The setup supports full-day service schedules, providing a practical and welcoming space to refuel between activities.

- Indoor dining space
- Outdoor dining option
- Daily breakfast, lunch & dinner service

## Life Above Deck

The upper outdoor areas are designed for relaxation, observation, and downtime between routes. Whether during navigation or at anchor, these spaces allow guests to enjoy open sea views in a calm and informal setting.

- Open seating areas
- Sun exposure zones
- Shaded relaxation spaces

## Standard Cabins

The lower-deck cabins offer a quiet and comfortable retreat after full days of activities. Designed with the same attention to functionality and rest, they provide a practical accommodation option without compromising onboard comfort.

- Private ensuite bathrooms
- Climate control
- Practical storage & soft lighting

## Premium Cabins

The upper deck cabins onboard M/Y High Wave offer an elevated stay with improved light, open views, and direct access to outdoor areas. Designed for guests who enjoy proximity to fresh air and shared decks, these cabins combine comfort with a practical liveaboard layout suited for active safari programs.

- Elevated deck position
- Natural light & sea views
- Private ensuite bathroom
- Climate control & storage

## Exclusive Suites

M/Y High Wave features two spacious suites created for guests seeking additional space and privacy. The large Sky Suite offers a more secluded experience with expansive views, while the Main Deck Suite provides convenient access to onboard facilities without compromising comfort or quiet.

- One Sky Suite (upper level)
- One Main Deck Suite
- Spacious layout & seating area
- Enhanced privacy

## Safety & Confidence at Sea

Safety onboard M/Y High Wave is integrated into every aspect of operation. Navigation systems, crew procedures, and onboard protocols are designed to provide a secure environment across all Red Sea routes and varying sea conditions.

- Modern Navigation & communication systems
- Emergency power & alarms
- Fire detection & suppression
- Life-saving equipment

## Built for Diving Operations

Designed to support professional diving and water-based activities, M/Y High Wave provides dedicated areas and systems that allow smooth daily operations without interfering with guest comfort. The setup supports both recreational and advanced safari programs.

- Dedicated diving deck
- Equipment storage & rinse areas
- Tenders for water access
- Professional safety systems

## Red Sea Safari Routes

M/Y High Wave operates a wide range of carefully planned safari routes across the Red Sea, designed to combine exploration, activity, and time at sea. The yacht is fully prepared for northern, southern, and deep south itineraries, offering flexibility for both scheduled safaris and private charter programs.

- North & South Red Sea routes
- Deep South expeditions
- Diving, leisure & mixed-activity safaris
- Custom charter itineraries
